

Horrors!

Dub McClish

There is considerable attention focused upon the protesters to nuclear energy by the news media, Personally, I believe most of their fears are unfounded. I have a few questions every American would do well to consider:

1. **What if** 40 – 50 people were killed every day by a malfunctioning nuclear plant?
2. **What if** that malfunctioning plant seriously injured 1,500 others every day?
3. **What if** nuclear energy caused 200 broken homes every day?
4. **What if** it caused 250 people to suffer permanent brain damage every day, besides the other injuries already described?
5. **What if** it caused 125 parents to abuse their children or to assault another loved ones every day?
6. **What if** it caused 5 – 6 billion dollars direct damage and inestimable indirect damage every year?

Now, if you will just double every figure I have quoted, you will have a partial picture of the effects of beverage alcohol! Where are the protesters?

[**Note:** I wrote this article for, and it was published in *The Edifier*, weekly bulletin of Pearl Street Church of Christ, Denton, TX, December 10, 1981, of which I was editor.]
